

### LED Drivers

PEAK electronics has extended the range of LED Drivers. Custom Design is available, also optional DIN Rail mounting.

#### **Applications:**

- ⇒ LED Street Lights
- ⇒ Traffic Control Systems
- ⇒ Indoor LED-Lighting

#### **Features list:**

- ⇒ DC/DC Step Down Converter
- ⇒ Wide Input Voltage Range
- ⇒ High Efficiency
- ⇒ Cases DIP14 , DIP16 and DIP24
- ⇒ Remote Control and Dimming Function (PWM/Analog)
- ⇒ I out from 300mA up to 1200mA

### AC/DC Encapsulated Power Supplies

The PPM-Series have an universal input of 85-264V AC & outputs from 3.3V to 24V DC in single, dual, triple and dual separated and output power from 3-25 Watt.

PEAK electronics has extended the range up to 60 Watt output power. For more information about our new 30-60 Watt modules, just send us your specific requirements, to receive detailed technical specifications.

### 15-20 Watt in 1"x1" Case

Now we can offer the PMK01 Series with wide 2:1 input range and single output. Available outputs are 3.3-15 V DC.

- ⇒ 1"x1" Case
- ⇒ 1600 V DC Isolation
- ⇒ Short Circuit Protection
- ⇒ Aluminum Case

### DIP24 Dual Separated PE14TGI-xxxxZ2:1LF

In addition to our existing one and two Watt converters with dual separate output (included in our PM1 and PM3 series, e.g. P6CUI or P10CUI) we now offer a 3 Watt version (PME01 Series) in a DIP24 case and wide input.
